## 5<sup>th</sup> Hands-on Course on Pediatric Flexible and Rigid Bronchoscopy

8-9 June, 2023

Universitäts-Kinderklinik beider Basel (UKBB)  
Spitalstrasse 33, CH-4056 Basel

Meeting point: AULA 2<sup>nd</sup> floor

### Course organizer

Prof. Dr. Jürg Hammer, Basel

### Faculty

Dr. med. Georg Henze Oxenius

Dr. Carola Schön, München

Dr. Dirk Schramm, Düsseldorf

Prof. Dr. Daniel Trachsel, Basel

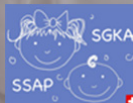

[pediatric-bronchoscopy.com](https://www.pediatric-bronchoscopy.com)

12 CME credits given by the Swiss  
Society of Intensive Care (SGI)

Under the umbrella of GPP, SGPP and SGKA

SCHWEIZERISCHE GESELLSCHAFT  
FÜR PÄDIATRISCHE PNEUMOLOGIE  
SOCIÉTÉ SUISSE DE PNEUMOLOGIE PÉDIATRIQUE  
SOCIETÀ SVIZZERA DI PNEUMOLOGIA PEDIATRICA

Course language is English

## Thursday 8.6.2023

### Flexible Bronchoscopy with Emphasis on the Difficult Airway

- 09.00 Welcome  
*J. Hammer*
- 09.30 – 11.00 **Lecture Block 1 - Flexible Endoscopy - Basics**  
Handling of the bronchoscope and anatomy of the airway  
*J. Hammer*  
Indications for flexible bronchoscopy in the ICU  
*D. Trachsel*  
Indications for flexible bronchoscopy in anesthesia  
*G. Henze*
- 11.00 - 12.30 **Skill Station 1 – Flexible Endoscopy - Basics**  
Flexible endoscopy of the airway with targeted and speedy navigation in the bronchial system. Good knowledge of bronchial segmental anatomy.
- 12.30 – 14.00 Lunch
- 14.00 – 15.00 **Lecture Block 2 – Flexible Endoscopy – Difficult airway**  
Anesthesia for bronchoscopy - what is important  
*G. Henze (incl. experience exchange among tutors and participants)*  
Fiberoptic intubation techniques  
*G. Henze*
- 15.00 – 16.15 **Skill Station 2 - Fiberoptic Intubation Techniques**  
Via endoscopy mask and LMA
- 16.15 – 16.45 Coffee Break
- 16.45 – 17.15 **Lecture Block 3**  
BAL in PICU and total lung lavage  
*C. Schön*  
Endobronchial blocker placement  
*G. Henze*
- 17.15 – 18.30 **Skill Station 3 -**  
Endobronchial blocker placement with help of the fiberoptic scope  
Foreign body extraction with help of the fiberoptic scope
- 18.30 **Review and Outlook - informal Apéro**

## Friday 9.6.2023

### Rigid Bronchoscopy - Basics, Foreign Body Removal and Beyond

- 09.15 Welcome  
*J. Hammer*
- 09.30 – 11.00 **Lecture Block 4**  
Knowledge of the rigid instrumentarium  
*J. Hammer, M. Kinkel*  
Handling of the rigid bronchoscope - practical tips  
*C. Schön*  
Rigid Endoscopes for Airway Management  
*G. Henze*
- 11.00 - 12.30 **Skill Station 4 – Rigid Bronchoscopy - Basics**  
Rigid bronchoscopy of the pediatric airway. Intubation and Navigation in the tracheo-bronchial tree.
- 12.30 – 14.00 Lunch
- 14.00 – 15.15 **Lecture Block 5 – Rigid Bronchoscopy**  
Foreign body extraction - German AWMF recommendations  
*D. Schramm*  
Including discussion of the handling at the different centers and interactive experience exchange with participants  
Complications and interventional techniques  
*C. Schön*  
Rigid bronchoscopy in the ICU  
*J. Hammer*
- 15.15 – 15.45 Coffee Break
- 15.45 – 17.30 **Skill Station 5**  
Practice of foreign body extraction with optical forceps
- 17.30 **Conclusion and Feedback**

**Lecture blocks are held in the Aula on the 2nd floor**

**Skill stations are in rooms B1 und B2 (3rd floor) and D5 (1st floor, PICU)**
